With Asiatic cholera raging in South America and several cases reported at different parts of the United States, recently at Detroit, Mich., people begin to consider what they would do in case it should appear in epidemic form here and to ask what can be done. First, the sanitary condition of the premises should be looked to; all decaying animal and vegetable matter removed. Second, drink no water until after it has been boiled. Third, procure a 50-cent bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and you may consider yourself and family fortified against the disease.
